

Website Programming Intern

Save Darfur Canada (SDC) is a not-for-profit national coalition of organizations advocating for the Canadian government to play a greater role in ending the crisis in Darfur, Sudan.

Our operating model distributes responsibility and leadership among a dynamic and always evolving team. The success of SDC depends in large part on the hard work and enthusiasm of interns and coordinators who are often un-paid. New interns will have the opportunity to take on increasingly greater leadership and responsibility within the organization.

The work of the Website Programming intern will be vital to the start-up and effective functioning of various SDC projects.

The main responsibilities of this intern position will depend on the programming skills of the interested candidate.

Application deadline: Position will be removed from the website as soon as it is filled

Start and end dates: Begins immediately; position length is concurrent with the level of involvement chosen by the candidate

Hourly commitment: Depends on project

Location: Montréal or anywhere in Canada

Remuneration: Volunteer position (Please note this position can be treated as an internship for school credit if approved by the institution attended.)

Please e-mail an application package consisting of cover letter, resume with two or more references, and sample of programming work to John Murray, Internship Coordinator at john@sdcanada.org, and we will assess your skills and arrange an interview. You can either provide a link to a sample of your work online or include a screenshot in the application package. You can expect to receive a response within two weeks of submitting your application package.

If you are not available to volunteer at this time but are interested in joining the SDC team at a later date, please feel free to submit an application package which we will look over and keep on file.
